Key Card Information

What do standard, status and concession mean?

Since 2008 prices have been offered in three levels on most of the activities at the Freedom Leisure Woking centres:

- ☐ **Standard** - this is the full price which everyone pays.
- ☐ **Status** - a discounted price available to children, youths, students, the disabled and over 60's.
- ☐ **Concession** - the maximum level of discount offered to Woking Borough council tax payers in receipt of selected benefits and below a set household income.

Why do I need a key card?

A key card in your name at the appropriate level (status or concession) will give you access to a discounted price for activities where available - swimming, badminton, Playstore or any of the other activities that are on offer. If you don't have a card the fee charged will automatically default to the standard rate.

Key cards also allow you to register for online bookings so that you can quickly and easily make bookings at your discount level. (If you don't have a key card you can still book online for activities as a "non-member" paying standard price).

What is a key card?

A key card is a plastic "credit-card style" swipe card which works with our booking system.

When your card is swiped your details are added to your booking. The cards cost £9.50 for standard and status, £6.50 concession annually. They are available from the Freedom Leisure Woking centres. Replacement cards cost £6.50.

How do I get a key card?

Check out the criteria needed for status or concession - either on the application form or website woking.gov.uk/thekey. Complete an application form and come to one of our centres with the required paperwork to show your eligibility and your annual fee. We will endeavour to complete your application and give you a key card there and then but there may be occasions when you may be asked to collect your key card a day or two later.

Do children need a card too?

Yes. All children (even under-fives) must have a Key Status card (or Key Concession card if eligible) in their own name in order to access status or concession discounted prices for activities at Freedom Leisure Woking centres.

What are the benefits of key cards?

- To help ensure that the right customers get the right level of discount.
- To help speed up bookings.
- To help understand our customers better so that programming can be adjusted and other improvements made.
- To prevent fraudulent access to discounted prices, helping to keep prices fair for everyone.
- To register for online bookings.

I've already got a key card what can I do?

If you have a key card for another reason such as an annual or monthly membership let us know when you bring your application and we'll add your new information to our existing card – you only need to have one card!

I want to change my details

Simply speak to a member of the memberships team or reception at your preferred Freedom Leisure Woking centre – we'll be happy to help. Please remember to keep your information up to date – especially if you have an online registration as your email and postcode is used to verify your details for your account.
